1st IN PERFORMANCE THROUGHOUT THE WORLD

Some years ago a 23-foot Formula was first under the checkered flag in a brutal ocean race. This was the first win for Formula. And it started a line of racing craft which since has captured practically every major trophy in open ocean powerboat racing against the toughest international competition afloat.

The superb marine engineering and hand craftsmanship necessary to maintain a winning stable of competition boats has been translated into the production line Formulas. You, as a prospective sportboat buyer, can look for and find ample evidence of this racing heritage in the line up of Formulas for 1972.
# Mason Boats Ltd.
