You've Always Wanted the Best...
The Formula 45 Yacht for 2013

FORMULA's superlative 45 Yacht advances into 2013 with extraordinary detailing and contemporary refinements. Richer, deeper colors throughout concur with the latest trends in home decor. The elegant new Midnight Blue Metallic Flagship selection is sure to become a popular choice, as it beautifully extends into the cabin’s smart Ralph Lauren Designer theme. The 45’s unique coupé-top design integrates the massive curved glass windshield with no forward bracing that would obscure areas of the panoramic view. There is also plenty of headroom for today's captains and guests to stand tall. The coupe closes off for climate control as needed, or a large portion of the coupe top retracts to enjoy sunny weather more completely.

Family and friends on the port lounge enjoy the great view forward as they converse with the captain at the double helm seat. The helm is equipped with the latest electronic technology for navigating to far away ports. Steps lead up through the center windshield for safe, easy deck access when arriving to dock. It's also the perfect exit to enjoy the foredeck chaise lounge at anchor or in port.

The aft cockpit area is well suited for extended cruises. Comfortable U-shaped lounge seating includes two dual height Corian®-topped tables, and the aft-facing lounge seat converts to a generous sunning area.

The 45 Yacht cabin is a study in luxurious appointments and tasteful, contemporary styling. The flooring throughout is wood-grain finish, both practical and attractive. Furnishings include Bose® theater entertainment and a large screen 46” television. The Ultraleather™ lounge is ideally shaped to dine, converse or watch television. Lumbar Ultrasuede® varying in both hue and texture, also creates smart contrast for added interest. The table is genuine hardwood with a beautiful, protective finish. The galley takes full advantage with flawless cabinetry and dovetailed drawers. The expansive counter top is seamless, hand-crafted Corian with varying tones and subtle veining. With the new matte finish, it closely resembles natural stone, yet is nonporous and so very practical. The newly styled sinks and faucets are reminiscent of the architectural cubism influence so favored by contemporary designers.

Owners enjoy the private master suite forward, which includes an extra large Sensus memory foam bed, drawers, hanging lockers and TV. The owner’s head compartment is mirrored and spacious, with a large sink, dressing table with Corian counter and a completely separate shower compartment across the master hallway. The guest suite is also private with its own TV, vanity with sink, and private head with shower. The twin beds also convert to a queen-size bed.

The 45 Yacht's graceful appearance proves its Formula heritage with a smoother, faster pace than expected for its size. Volvo® IPS 600 power is ideally suited to the hull configuration, and with joystick maneuvering capability, docking is easily accomplished.

The 45 Yacht's mystique is a logical extension of the proven expertise acquired through Formula's fifty-seven year evolution in producing exceptional offshore watercraft. This yacht is a prestigious symbol of ongoing success for Formula and certainly the Porter family wouldn't settle for less and neither should you!

You've Always Wanted the Best... It's Always a FORMULA!

Formula Presents the 2013 Line of Best Designed, Best Built Pleasure Boats on the Water Today.

Through over fifty-five years of ongoing advancement in marine manufacturing, Formula's tradition of excellence continues to surpass expectations with the ultimate goal of providing consistently gratifying experiences on the water with family and friends.

The Porter Family, owner/managers of Formula since 1976, focuses on continual product improvement throughout the line, from the smallest Sun Sport to the superlative 45 Yacht. A dedicated team of employees do their best every day, combining premium materials with detailed fit and finish to achieve the extraordinary standard of quality required in a Formula.

As Lifelong Boaters, the Porters also realize the importance of responsive, customer-oriented service for owners, addressing issues through area dealerships, authorized service centers and the technical assistance team located at the manufacturing facility.

The Formula Difference

The Porters invite you to join the ever-growing family of boaters who experience a reassuring difference with Formula. That difference is the result of fine-tuned design, authentic craftsmanship and a companywide insistence on excellence. It means you’ll enjoy more priceless moments with family and friends each time you boat. The Porter family wouldn’t settle for less and neither should you!

The Formula Difference Video

John Adams, Formula’s Exclusive Designer over many years, is responsible for each Formula’s sleek lines and outstanding performance, always achieved through his eminent blend of form and function. Adams’ unique designs proceed to become prototypes, 3-D images followed by full-scale reproductions and then on to become the master molds.
FORMULA IS FAMOUS FOR PERFORMANCE EXCELLENCE AND LONG LASTING BEAUTY

The Formula 45 Yacht cruises at a spirited pace with responsive handling and a smooth, enjoyable ride.

FORMULA CABINS ARE INVITING AND COMFORTABLE

Interior furnishings of the 45 Yacht indulge owners with elite residential appointments. Richly finished wood entry steps, inlaid with brass boot rail and ornate standards. Boot certification should definitely be a major determining factor when purchasing a boat.

FORMULA DOCKETS ARE DESIGNED FOR VERSATILITY AND CROWD-PLEASING COMFORT

All seating is contoured with preshaped foam components for maximum comfort and, including the foredeck chaise lounges, utilize technical engineers’ foam that does not retain water. Waterproof materials rather than wood are used throughout the cockpit, and seat cores are rotoform to assure longevity.

THE PRIMARY GOAL OF THE FORMULA TEAM IS OWNER SATISFACTION

Owner safety has always been a key issue with the Formula Team, and they work at it every day. Each Formula is built according to National Marine Manufacturers Association and American Boat and Yacht Council standards. Boat certification should definitely be a major determining factor when purchasing a boat.

FORMULA components have been tested extensively for quality and endurance. If a proposed item fails the rigorous testing process, it won’t be in your Formula Yacht.

FORMULA electrical systems keep you on the water through individually hand-crimped and heat-sealed connections with double-wall shrink tubing instead of using the less reliable, pre-insulated connector common in the industry. For longer runs, color-coded wiring series are neatly routed through flexible, protective conduit.

FORMULA Cockpits are designed for versatility and crowd-pleasing comfort

Helm seating offers individual options of sitting, standing or leaning back against the upright seat. The waterproof rocker switches, electric shift and throttle controls and GPS joystick are easily reached. Illuminated instrumentation, GPS navigation with chartplotter and engine monitors are logically arrayed on the easy-to-read dash panels.

THE INTEGRATED VIBRO-BOAT COQUIfferless with sink, refrigerator, cooler, trash container and storage is topped by a hinged Corian® counter, and everyone is within easy reach of a polished stainless steel drink holder.

SMOOTHLY finished fiberglass locker doors securely carry your carry-on gear and supplies to keep the cockpit clutter free. Cable, lines, fenders and PFDs are stored in specific compartments.

The engine room is easily accessible for inspection simply by activating a switch or a day hatch also allows quick fluid checks. Systematic rigging to the twin Volvo diesel engines is subjected to the highest standards for tracking system functions and ease of maintenance.

A unique DuPont® Imron® paint process results in Formula’s vibrant, long-lasting finish that for surpasses all others. Iconic graphics never chalk or fade as compared to colored gelcoat, and Formula uses absolutely no accent tape stripping to achieve their stunning graphics. The wide selection of color and design options allows more personalized expression for each owner.

The 45 Yacht hull is rigidly reinforced with a unique, custom-engineered matrix, a continuous-molded, one-piece fiberglass grid bonded to the hull with Plexus® adhesive. Reinforcement is also achieved by placing custom-fabricated fiberglass shapes, or pultrusions, internally along the hull. Chemically bonding the deck and hull, then securing with stainless steel bolts through heavy backing plates creates an inseparable bond.

To avoid the surface oxidation brought on by other boats, Formula utilizes premium-grade AKE® 5000 resin and also allows optimal care time in thoroughly maintained molds. These important procedures perfect and sustain surface durability and beauty.

To make it into a formula

All the best components

Yacht is reliable, pre-insulated connector common in the industry. For longer runs, color-coded wiring series are neatly routed through flexible, protective conduit.

Audio visual innovations offer the latest in technology with a premium AM/FM/CD stereo system with subwoofer in the cockpit. The iPad®/MP3 port at the helm and subscription-ready Sirius® satellite radio enhance system functions and ease of maintenance.

Formulas for sale and a number of additional locations designated as Formula Authorized Service Centers, over 100 locations easily found on the Formula website, are dedicated to product development, and they can rely on the corporate Formula Technical Assistance Group (TAG) for quick advice to resolve issues that might otherwise interrupt good times on the water.

FORMULA Guard coverage on every new model protects each owner’s investment beginning with a 10-year structural warranty. All components, accessories, engines and outboards are covered through a 5-year limited protection plan including necessary labor and replacement materials. The Formula Guard program is transferable during the first five years of ownership, so a new owner can continue to enjoy the remarkable difference in performance and quality that Formula delivers.
